## *McClain Ozone Sanitaton Systems*

John McClain is the pioneer of ozone sanitation in wineries in California. With over 2000 units in operation, McClain is the leader in technology and innovation. Ozone has been proven to be a safe and effective sanitizer of bacteria for over 30 years and the exclusive McClain gas stripper provides more safety by removing excess ozone gas that is not absorbed into the water. McClain offers several models and options to meet your production needs.

Sevice in Ontario is provided by trained personnel of Vines to Vintages Inc.

<b>Product</b>	<b>Description</b>	<b>Price US\$</b>
Bugbuster Plus	With an available flow rate of 7-35 gpm and offering 30 grams/hour of ozone output and 4-6 ppm of ozone concentration, this machine is optimal for larger wineries requiring rapid barrel sanitation. A four-wheel cart maneuverability. Power supply is 120 volt standard. -	14,495.00
Destroyer Plus	With a flow rate of 4-12 gpm this machine offers 10 grams/hour of ozone output and 2.4-3.2 ppm ozone concentration. A sturdy two-wheel cart provides mobility to anywhere in your facility. Rugged polycarbonate housing. Power supply is 120 volt standard.	10,495.00
Options (Desroyer Plus and Bugbuster Plus): Barrel Gas Option	Studies indicate that ozone gas is beneficial in the barrel to improve sanitation. This option allows the winemaker to take the gas strip system offline when doing barrels, thus allowing the extra ozone gas to go into the barrel.	165.00
Options (Desroyer Plus and Bugbuster Plus): Ozone & Oxygen Gas Option	This option allows the winemaker to pull direct ozone or medical grade oxygen gas (without water) from the sanitation system. Ozone gas is effective in barrel storage and cellar mold control. Oxygen gas is available for micro-oxidation tanks or barrels.	695.00
